PROFILE

"Full Stack Developer with hands-on experience in web development. Completed a Full Stack Development course and currently pursuing BCA (Semester 4, External). Skilled in front-end and back-end technologies, database management, and secure authentication. Actively seeking job opportunities to apply my skills.

PROJECTS

Blog Platform

[Blog-link](#)

- Developed a full-stack blogging platform with content viewing and commenting features.
- Built an admin panel for managing posts with interactive analytics.
- Designed a MongoDB-based backend for managing posts, comments, and users.
- Implemented secure authentication using Passport.js and Passport-local.

School API

[school api-link](#)

- Developed three user modules:
- Admin, Faculty, and Student. Admin can manage Faculty and Student records.
- Faculty manages students using JWT authentication and ORM.

E-commerce Web App

[ecomerce-link](#)

- Developed a full-stack e-commerce website with an Admin Dashboard.
- Admin can manage products, categories, subcategories, and extra categories.
- Built using Node.js and Express.js for backend.
- Implemented user authentication and password reset functionality via email.
